### About

- I have more than 4 years of experience with Web Developer Position and mostly focus on PHP Language. Also has basic experience with React/React Native, Vue.js and Flutter.
- I'm looking forward to challenging myself to the next step as Front End Developer position.
- I want to work in an environment which I can improve my English and communication skills.
- I would like to have the opportunity to try in team's training & management in order to be a leader in the future.

### Work experience

#### Web Developer

06/2021 - Present

JV-IT TECHS

- Develop new features in a way that is later maintainable
- Maintain and clean code for available features or bugs
- Integrate API of Third Party based on requirement
- Carefully test my ticket before giving it to QC

#### Web Developer

11/2018 - 05/2021

Innotech Vietnam Corporation

- Read the client's requirement and frankly give an idea to the Lead if there is a better solution
- Test, maintain, review and recommend software improvements to ensure strong functionality and optimization
- Review code between members of the project
- Integrate API of Third Party based on requirement
- Learn new technologies quickly to participate in assigned projects
- Understood and implemented Scrum & Agile in several projects
- Cooperate with BA to come up with the most reasonable UI, as well as the most accurate SRS document
- Support BA to write user stories to keep up with project schedule

#### Web Developer

09/2017 - 10/2018

The App Team

- Clearly and regularly communicate with management and technical support colleagues
- Successfully complete the development and maintenance of assigned projects

<b>Blue Eyes</b>	Feb 2019 - Present
Customer	Personal Team
Description	<p>Blue Eyes is a non-profit application that I co-founded with 2 of my closest university friends, after seeing the needs of a central platform to host missing person profiles posts. The application is a social platform for public users to create and manage their missing person profile post. The application selectively matches and notifies the user if there is another missing profile seems to match the identity of the person they're looking for.</p> <p>Url: <a href="https://www.matbiec.org/">https://www.matbiec.org/</a></p>
Team size	3
My position	Mobile Developer
